Even though this game is not labeled as a collector's edition. It has some extra features that are only available in the collector's edition.

Game Visuals

I want to mentioned that the visuals in the game is well done. The visuals can be adjusted in the game's option menu.

Game Audio

I want to mentioned that audio for the game is well done. Even though the audio is somewhat simplistic and repetitive. The audio can be adjusted in the game's option menu as well.

Gameplay

This is a strategy game, where careful planning is required, due to limited amount of resources that are available.

There are three different game difficulty modes to choose from: Beginner; Normal and Expert.

There are ninety-one levels in total. The main story has seven chapters with the total of sixty-one levels and the challenge section with the total of thirty-one levels. All levels has set objectives assigned to them that needed to be completed within the allotted time.

All levels has three star rating system. The stars are earned from playing the game. The star rating system represents how fast the levels is completed. The star rating system: Three Stars (Gold;) Two Stars (Silver) and One Star (Bronze.) There is an opportunity to replay levels for better star and score rating.

There are special bonuses that can be used in order to complete task objective much quicker. These special bonuses needs to be purchases with money earned from playing the game.

There is a collectible in the game: Mouse. They can be found peeking out of a mouse hole on all the levels.

There are twenty-one different achievements that can be unlocked from playing the game. Each of these achievements does come with some requirements that needs to be completed before they can be unlocked.

Miscellaneous

Final thoughts: I have found the game enjoyable to a certain extent. The replay value for the game is low. I would recommend this game, but not at the game's full price value.
